

All active Compost Kauai members get 30% off all compost products!

## COMPOST KAUI GOODS

Locally produced in Wailua Homesteads, our compost is created with our community’s food scraps, cardboard, paper products and wood chips.

We allow these materials to break down over many months in a hot composting process, killing weed seeds and pathogens, until a dense, nutrient-rich soil amendment emerges.

Compost is an invaluable organic material that strengthens microbial communities in our soil and supports the vital work of farmers and growers across Kauai.

Options	Description & Use	
Sifted Compost	1/2 inch sifted, perfect for mixing with soil to support plant starts and seedlings in outdoor plantings or indoor pots	
Unsifted Compost	<p>A bit chunkier, can be used as a mulch compost for top dressing larger areas, garden beds, or mixed with soil in a raised bed</p> <p><b>**disclaimer: may contain contaminants such as plastic, rubber bands, forks, lint, food packaging and large wood chips</b></p>	

### BAGGED COMPOST \*Prices do not include tax.

Our finished compost product is bagged to order in t-shirt bags or repurposed hotel linens. Our commitment to diverting waste from the landfill extends beyond food scraps; we will happily accept returned bags to reuse. Just bring them back to the same location you picked up your compost bag.

*Please allow 3-5 days for us to sift and bag your compost.*

Compost can be picked up in Wailua, Kilauea, Lihue or Kapaa.

More details and our online store can be found on our website.

**Active curbside members are eligible for 30% discount and delivery on their service day.**

Quantity	Price
1 bag of UNSIFTED compost (0.7 cubic feet)	\$21.00
1 bag of SIFTED compost (0.4 cubic feet)	\$21.00

**BULK ORDERS** \*Bulk delivery available/fee based on location (see below). Prices do not include tax.

Orders of 1/2 yard or more are considered bulk. Email [jbrownclay@gmail.com](mailto:jbrownclay@gmail.com) with inquiries.

Bulk orders can be sold loose or in a 1-yard super sack polybag (\$40 deposit for bag). If picking up from our facility, [here](#) is a resource to help estimate your truck’s capacity. We suggest bringing a tarp to line your truck for easier cleanup and removal.

**\*Note:** if using a super sack poly bag you will need a way to lift and remove the super sack polybag from your vehicle after leaving our facility

Quantity	Price (sifted)	Price (unsifted)
1/2 yard (100 gallons)	\$200	\$75
1 yard	\$400	\$150
2+ yards	\$300/yard	\$125/yard

**BULK DELIVERY** \*Prices do not include tax.

Orders of 1/2 yard or more can be delivered for an additional fee. Compost can come in a super sack bag (poly weave bag) or loose.
